The nomination committee proposes the following principles for establishment of nomination committee and instruction for the nomination committee, to apply until a decision to change the principles for the establishment of the nomination committee or instructions for the nomination committee is made by the general meeting of shareholders.

Principles for establishment of nomination committee

The AGM appoints a nomination committee. The nomination committee shall consist of the chairperson of the board of directors as well as three members elected by the three largest shareholders or groups of owners in terms of voting rights (herewith referred to both direct registered shareholders and nominee registered shareholders) of the Company, according to Euroclear Sweden AB's transcript of the share register as of 30 September each respective year. The majority of the members of the nomination committee shall be independent in relation to the Company. The CEO or management may not be part of the nomination committee. At least one of the members of the nomination committee shall be independent in relation to the largest shareholder of the Company in terms of voting rights or group of shareholders who cooperates on the Company's management.

Information about the names of the members of the nomination committee and which owner they represent shall be stated on the Company's website. If owners, who are represented in the nomination committee, no longer belong to the three largest shareholders after the announcement, their member shall make their place available and such shareholders belonging to the three largest shareholders shall instead be offered a place in the Company's nomination committee. However, there is no need to

consider minor changes. If a member leaves the nomination committee before its work is completed and if the nomination committee considers that there is a need to replace this member, the nomination committee shall appoint a new member according to the principles above, but based on Euroclear Sweden AB's transcript of the share register as soon as possible after the member had left the nomination committee. Owners who have appointed a member of the nomination committee have the right to dismiss such a member and appoint a new member. Amendments in the composition of the nomination committee must be immediately announced.

Instruction for the nomination committee

The nomination committee is to prepare proposals of resolutions regarding the following matters to the Annual General Meeting:

- a. Election of chairperson of the AGM.
- b. Determination of the number of directors and deputy directors.
- c. Determination of remuneration and other fees to the board of directors, distinguishing between the chairperson of the board and other directors.

No remuneration is made to the nomination committee. The Company shall however be responsible for reasonable costs for the execution of the tasks of the nomination committee.

Resolution on establishment of Warrant Program 2023/2026 by a) directed issue of warrants to subsidiary and b) approval of transfer of warrants to management and other key persons of the Company or its subsidiaries (item 13)

The board of directors proposes that the AGM resolves on the establishment of Warrant Program 2023/2026 by the Company conducting a directed issue of warrants and resolution on transfer of warrants to members of management and other key persons who have entered into an employment agreement or consulting agreement with the Company or its subsidiaries on the terms set forth below ("**Warrant Program 2023/2026**").

The issue of warrants shall, with deviation from the shareholders' pre-emption rights, be directed to the Company's wholly-owned subsidiary Artificial Solutions Holding ASH AB, reg. no. 556734-1556 (the "**Subsidiary**"). The warrants shall be issued without consideration. Right to subscribe for the warrants confers to the Subsidiary with right and obligation for the Subsidiary to offer certain members of management and other key persons who have entered into an employment agreement or consulting agreement with the Company or its subsidiaries, to obtain warrants on the terms set forth below.

The board of directors shall have the right to deviate from or amend the terms for Warrant Program 2023/2026 due to local regulations and customs.

Since the warrant program shall be offered on a broad scale in order to best promote long term value creation in the Company and for the Company's shareholders, the board of directors assesses that no predestined and/or measurable criteria should be required in order to be eligible to participate in Warrant Program 2023/2026.

The board of directors considers it important and in the best interest of all shareholders that certain members of management and other key persons, who are considered important for the group's development, have a long-term interest in a positive value development of the Company's shares. A personal long-term shareholder engagement is expected to contribute to an increased interest in the

Company's business and result, as well as to increase the participants motivation and affinity with the Company and its shareholders.

Upon full exercise of all warrants that may be issued in Warrant Program 2023/2026, 11,381,010 new shares will be issued, which corresponds to a dilution of 10 percent of the total number of shares and votes in the Company, however, subject to any potential adjustment which may occur under the terms and conditions for the warrants. Accordingly, the program offers the participants the possibility to increase their shareholding in the Company to the corresponding figure. A condition for allotment of warrants in Warrant Program 2023/2026 is that the participants, if applicable, return warrants from previous warrant programs (with subscription prices ranging from approximately SEK 8 up to SEK 31) free of charge. Such warrants will thereafter be cancelled by the Company. The previously issued warrant programs therefore cause no dilution.

a) Directed issue of warrants to the Subsidiary

The issue, which consist of a maximum of 11,381,010 warrants of series 2023/2026, shall be made with deviation from the shareholders' pre-emption rights and on the following terms.

The Company shall issue a maximum of 11,381,010 warrants. Each warrant confers the holder a right to subscribe for one (1) new share in the Company.

The warrants shall, with deviation from the shareholders' pre-emption rights, only be able to be subscribed for by the Company's wholly-owned Subsidiary. After subscription, the Subsidiary shall offer management and other key persons to acquire the warrants. The warrants shall be issued without consideration.

The warrants shall be subscribed for on a separate subscription list within three weeks from date of the resolution on the issue. The board of directors shall have the right to extend the subscription period.

The warrants may be exercised by application for subscription of new shares during the period from 1 July 2026 to 31 December 2026. Holders shall, in accordance with the terms and conditions for the warrants, during the period from 1 July 2026 to 31 December 2026 have a right to subscribe for one (1) new share in the Company for each warrant. However, subscription of shares cannot take place during a period when trading in the Company's shares is prohibited according to Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (the market abuse regulation) or any other equivalent legislation applicable at any given time.

The subscription price of shares when exercising the warrants shall correspond to 250 per cent of the volume-weighted average price for the Company's share on Nasdaq First North Growth Market during the ten trading days immediately preceding the AGM. However, the subscription price may never be less than the quota value of the share. If the subscription price exceeds the quota value of the shares, the excess amount (premium) shall be included in the non-restricted share premium fund in the Company's balance sheet.

Provided that the warrants of Warrant Program 2023/2026 are fully exercised, the Company's share capital can increase with a maximum of SEK 13,232,889.819075.

The reason for deviation from the shareholders' pre-emption rights is that the Company wishes to promote the Company's long-term interests by offering management and other key persons a well-considered incentive program, which give them the opportunity to take part in a positive value development of the Company. The Company assesses that this will create incentives for members of management and other key persons to contribute to the Company's long-term value creation and developing the common interest between the participants in Warrant Program 2023/2026 and the Company's shareholders.

Shares issued due to subscription will confer entitlement to dividends for the first time on the record day for dividends occurring closest after the new shares have been registered with the Swedish Companies

Registration Office (the “SCRO”) and the shares have been entered into the share register kept by Euroclear Sweden AB.

Warrants held by the Subsidiary, which have not been transferred in accordance with item b) or repurchased from participants, may be invalidated by the Company after resolution from the board of directors of the Company with consent from the board of directors of the Subsidiary. Invalidation shall be submitted with the SCRO for registration.

The board of directors, or anyone appointed by the board of directors, shall be authorized to make such minor adjustments of the resolution which may be required for registration with the SCRO or Euroclear Sweden AB, in case of resolution from the board of directors on registration with Euroclear Sweden AB.

The complete terms and conditions for the warrants will be kept available at the Company's website. The subscription price and the number of shares for which each warrant entitles the holder to subscribe may be subject to recalculation pursuant to a bonus issue, share split, new issue with pre-emption rights and similar measures, whereby conventional terms and conditions for recalculation shall be applied.

b) Approval of transfer of warrants

The board of directors proposes that the AGM resolves to approve that the Subsidiary transfers a maximum of 11,381,010 warrants in the Company of series 2023/2026 to management and other key persons who have entered into an employment agreement or consulting agreement with the Company or its subsidiaries, or in any other way dispose of the warrants in order to secure the Company's commitments in relation to Warrant Program 2023/2026.

Members of management and other key persons will, within Warrant Program 2023/2026, be offered to subscribe for warrants divided into three categories:

Category	Maximum number of warrants per person	Maximum number of warrants per category
A. The Chief Executive Officer of the Company	2,276,202	2,276,202
A. Members of management (maximum 4 persons)	1,195,006	3,414,303
B. Other key persons (maximum 75 persons)	569,050	5,690,505

The participants can choose to apply for a lower number of warrants than what is stated above. Should the total number of warrants the participants wish to acquire exceed the highest number of warrants that can be issued within Warrant Program 2023/2026, a proportional reduction is to be made of the number of warrants each person can be assigned pursuant to the guidelines above. Guaranteed allocation will not occur. A participant has the right to apply for a larger number of warrants than what is stated in the guidelines above and may be assigned additional warrants if the program is not fully exercised. Should such oversubscription occur, allocation shall be made to participants who wishes to subscribe for additional warrants, pro rata in relation to the number of warrants they have been assigned in the first allocation.

Any warrants that are not assigned pursuant to the above or that have been repurchased shall be reserved for future recruitments of people within the above stated categories in the group until the end of the Annual General Meeting in 2024. For such acquisitions, the conditions shall be the same or equivalent to what is stated in this resolution. This means, inter alia, that acquisitions of warrants made by new Swedish participants shall be made at market value at the time of the acquisition. The board of directors shall have the right to specify a corresponding application period for new participants whose acquisition takes place after the expiration of the initial application period.

Participants shall be offered to, following allocation to any future recruitments pursuant to the above, apply for additional warrants in addition to what is stated in the guidelines above and may be assigned additional warrants if the program has not been fully exercised. Should such application occur, allocation

shall be made to participants who wishes to acquire additional warrants, pro rata in relation to the number of warrants they have been assigned in the first allocation.
